

How to install ProTitser

Follow the pictures. In each one, press the part with the **gold ring**. For Windows 10 and 11. No internet is needed to install.

1

Download

2

Open the zip

3

Run anyway

4

Install

5

Open ProTitser

Windows will show warnings. That is normal.

ProTitser is new, and Windows warns about any program that only a few people have downloaded. The file is safe when it came from **protitser.com** or your authorized distributor.

1 Download the installer

protitser.com

 Download for Windows

- ① On **protitser.com**, press **Download for Windows**.

ProTitser_setup.zip isn't commonly downloaded

Make sure you trust it before you open it.

Keep

Delete

- ② If you see this, press **Keep**. (Click the small arrow or the three dots to find it.)

Make sure you trust ProTitser_setup.zip before you open it

Microsoft Defender SmartScreen couldn't verify if this file is safe.

Keep anyway

Delete

- ③ If it asks again, press **Show more**, then **Keep anyway**.

2 Open the zip file

Downloads

 ProTitser_setup.zip

Open

Extract All...

Properties

- ① In **Downloads**, right-click the ProTitser zip file and choose **Extract All**.

Extract Compressed (Zipped) Folders

Files will be extracted to this folder:

Downloads\ProTitser_setup

Extract

Cancel

- ② Press **Extract**. A folder opens.

ProTitser_setup

 How to install ProTitser

 Install ProTitser

 ProTitser_setup

- ③ Double-click **Install ProTitser**. It gets the installer ready and opens it for you.

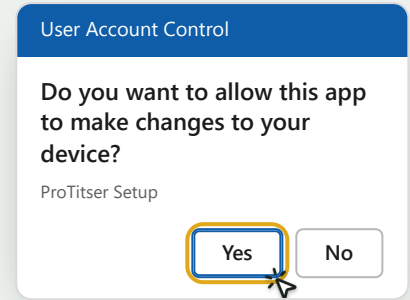

3 If a blue box appears: More info, then Run anyway

① Click the words **More info**.

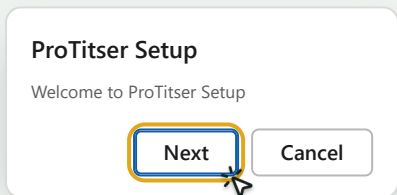

② Press **Run anyway**.

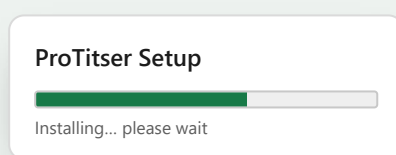

③ If Windows asks this, press **Yes**.

❓ No **Run anyway** button, or the file still will not open? See "If Windows still blocks the installer", then come back to step 4.

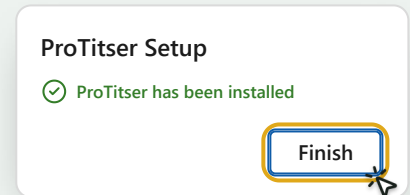

4 Follow the installer

① Press **Next**, then **Install**.

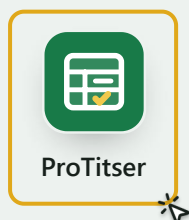

② **Wait** until the green bar is full.

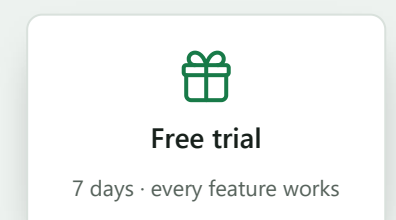

③ Press **Finish**.

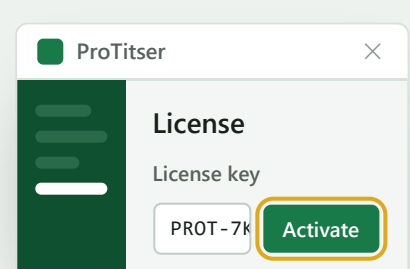

5 Open ProTitser

① **Double-click** ProTitser on your desktop, or find it in the Start menu.

② Use it **free for 7 days**. Nothing to type yet.

③ To activate: **Settings** → **License**, type your key, press **Activate**.

🛡️ If Windows still blocks the installer

Install ProTitser in step 2 already unblocks the installer for you. If Windows still stops it, try **A**, then **B**.

A Unblock the file yourself

Open

Run as administrator

Copy

Delete

Properties

- 1 Right-click the ProTitser setup file, then choose **Properties**.

ProTitser_setup.exe Properties

General

Compatibility

Details

Security: This file came from another computer and might be blocked.

☒ Unblock

OK

Cancel

- 2 At the bottom, tick **Unblock**, then press **OK**.

Downloads

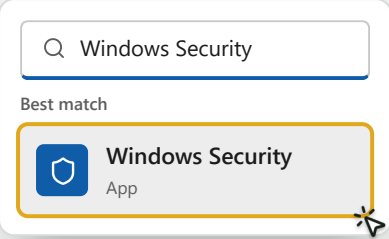

ProTitser_setup.exe

- 3 Double-click the file again.

i No **Unblock** box? Then do **B**.

B Turn off reputation-based protection for a moment

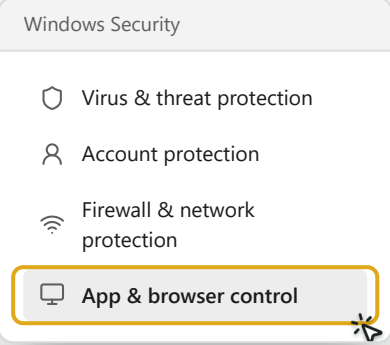

Windows Security

Best match

Windows Security
App

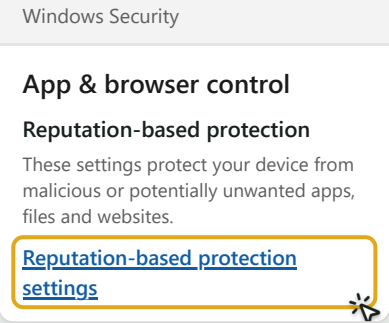

1 Press **Start**, type **Windows Security**, and open it.

Windows Security

- Virus & threat protection
- Account protection
- Firewall & network protection
- App & browser control**

2 Click **App & browser control**.

Windows Security

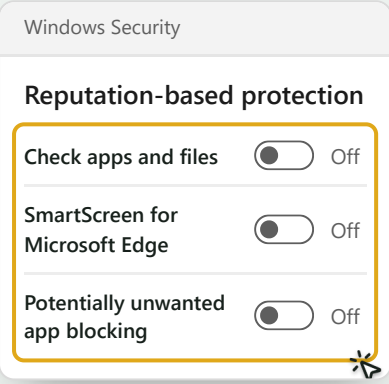

App & browser control

Reputation-based protection

These settings protect your device from malicious or potentially unwanted apps, files and websites.

[Reputation-based protection settings](#)

3 Click **Reputation-based protection settings**.

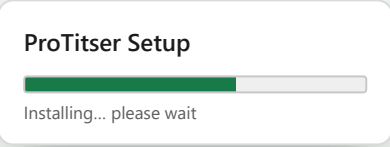

Windows Security

Reputation-based protection

- Check apps and files ☐ Off
- SmartScreen for Microsoft Edge ☐ Off
- Potentially unwanted app blocking ☐ Off

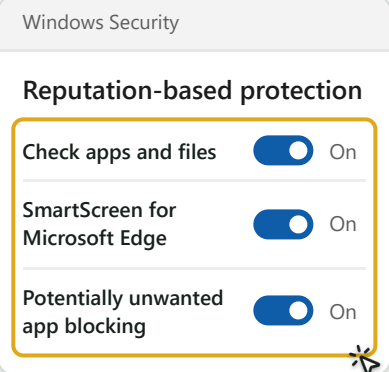

4 Switch these **three** to **Off**: **Check apps and files**, **SmartScreen for Microsoft Edge** and **Potentially unwanted app blocking**. Press **Yes** if Windows asks.

ProTitsr Setup

Installing... please wait

5 Open the installer again and finish **steps 3 to 5**.

Windows Security

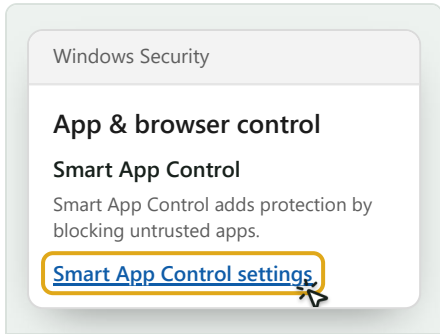

Reputation-based protection

- Check apps and files ☒ On
- SmartScreen for Microsoft Edge ☒ On
- Potentially unwanted app blocking ☒ On

6 Switch all three back **On** when ProTitsr is installed.

⚠ Do not skip picture 6. These three switches protect your laptop from other downloads and websites. ProTitsr keeps working with them on. The yellow "Your device may be vulnerable" notes go away once they are back on.

C Windows 11 says “Smart App Control blocked”

Windows Security

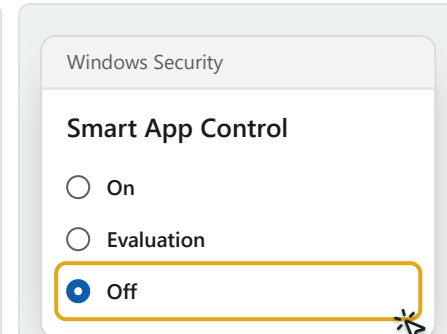

App & browser control

Smart App Control

Smart App Control adds protection by blocking untrusted apps.

[Smart App Control settings](#)

1 In App & browser control, click **Smart App Control settings**.

Windows Security

Smart App Control

☐ On

☐ Evaluation

☒ Off

2 Choose **Off**, then open the installer again.

 **Think first:** once Smart App Control is Off, Windows does not let you switch it back on without resetting the laptop. Do this only on your own laptop. On a school laptop, ask your ICT coordinator.

D The file disappeared, or an antivirus removed it

-  Download it again from **protitser.com**.
-  Using Avast, McAfee, Kaspersky or another antivirus? Open it and choose **Allow** or **Restore** for the ProTitser file.
-  To be sure the file is genuine, use **Check that your download is genuine** in the Download section of protitser.com.

? Still stuck?

Take a photo of what Windows shows and send it to the developer or your distributor.
